About bOunceT

Previously Forth Valley Rebound Therapy Service CIC.

“bOunceT: Innovative Occupational Therapy exists to promOTe independence one bounce at a time!”

We are an award-winning Community Interest Company (CIC) currently working across Scotland to provide:

1:1 and Group Sessions
in our Stirling Therapy Room or 'in-house' across communities.

Consultancy
for organisations & schools that would like to get professional advice around how to create bOunceT Therapy Plans for their pupils or service users - or have these created by our Occupational Therapist.

CPD Training
‘Open’ & ‘In-house’ training courses to learn the bOunceT model of Occupational Therapy.

Our Occupational Therapist creates specialised Therapy Plans aiming to improve the quality of life and participation in occupations for children and adults living with a wide range of disabilities - by using a trampoline, play & equipment to improve users physical, social & sensory outcomes.

**Our OT measures goals by using:**
- Standardised and observational OT assessments and outcome measures.
- Evidence-based clinical reasoning.
- Collaboration with other professionals.

**Our Therapy Assistants:**
- Fully trained to lead 1:1 or group sessions.
- Use an online portal to record pictures, videos & notes of sessions. This information is private but easily accessible by parents/carers via mobile or iPad app.

Callum set up this social enterprise at just 23 years of age in 2016, whilst studying in his final year at Glasgow Caledonian University. Having also qualified as a Rebound Therapy Coach, Callum was interested about using this intervention in Stirling. Armed with a huge amount of enthusiasm, he decided to set up the first and only open referral service for ‘Rebound Therapy’ in the whole of Scotland.

After qualifying as an Occupational Therapist in 2017, he changed his practice to adopting an evidence-based professional approach by using a trampoline, play and sensory equipment as a motivator for engaging children and adults with additional support needs in fun, 1:1 or group sessions.

Due to the success of this innovative approach, the service has re-branded to bOunceT: Innovative Occupational Therapy.
